SIT TO STAND TRANSFER PLATFORM

Mobi Pro Flexi

Stand up, sit down, and ride to the next seat.

For someone with low leg strength and some balance in the trunk, who can stand but finds walking hard. They pull up on the crossbar with their knees against a padded support, a padded seat swings in beneath them, and a caregiver wheels them to the next seat.

OVERALL SIZE

FOR INDOOR USE | SEAMLESS 2 IN PADDING | FOOTPLATE 17.7 IN WIDE | WHITE AND GREY

WHY PEOPLE CHOOSE IT

What sets it apart

- **Small turning radius** Human Care built it compact, for smaller spaces at home.
- **One caregiver** A single caregiver can move it, with the person seated.
- **Knee support that fits** The padded shin support moves 3.5 inches up or down to suit the person.
- **Something to hold** A crossbar for the person to pull up on, and grips for the caregiver.

WHAT YOU GET BUYING IT HERE

The part a spec sheet leaves out

- We look at the rooms and the transfer before it is ordered.
- Delivery and set up across the Lower Mainland.
- Full manufacturer warranty on everything we sell.
- We handle the warranty claim after the sale.
- Complimentary service checks after set up.

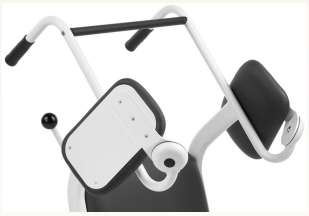
SCAN FOR DETAILS

Prepared by South Surrey Medical Equipment from Human Care's Mobi Pro Flexi product page, product sheet 99045 and instructions for use 11992146 (November 2024), reviewed September 25, 2026. Confirm the person and the rooms before ordering.

WHAT MAKES IT WORTH IT

Mobi Pro Flexi, feature by feature



A seat that swings in

Two padded seat halves stay open while the person stands, then rotate down beneath them to sit.

Brakes on the back

Double wheel casters, 3 inches across. The two at the back lock, and stay locked whenever it stands still.

Firm footing

A solid footplate with an anti slip surface, only 2.8 inches off the floor.

Base opens three ways

A hand lever sets the base to one of three widths, so it slides under most seating.

Three year warranty

Human Care's manual gives three years. Expected life is ten years, with a check by a qualified person yearly.

Made for indoor floors

Keep to level indoor floors. Avoid recessed drains, holes and slopes steeper than 1 in 50.
